06/06/1447

Dear Sirs, Global Weibo

We haven't seen any response, despite the lack of integration and the project being bypassed by you. You know I'm working to protect the rights of others, including members of the team who were exploited by the opponent, turning them against the entity that has supported them for 14 years. Regarding the requests for the document, it may not be a project document for our own building. What we received was a request to include notices, content titles, URIs, product names, and distribution information in a document issued by the WIPO Network Association for the Dollar Shine product, through versions from 2002 through 2015, until it was amended in 2023 and is still in use. Our document is preserved, publicized, and warns against any similar or identical work or generation, while publishing and distributing it remains for training and development purposes with a virtual presence. This is without harm. It was discussed in 2017.

The discussions were based on document 17 PCT/A/49/1.

18. The discussions were based on document PCT/A/50/1.

19 PCT/A/51/1. PCT/A/53/1
A/61/10
(Document A/61/1, and what you are doing is misleading and nothing but abuse. If you want a solution, it should be through the most senior member who leads the agreement. Therefore, the official publication statement will be from the country of origin. I hope to return to the WIPO global agreement with WIPO in the Kingdom of Saudi Arabia, and the request to the Korean office, which was submitted 40 days ago, has not received any response yet. Nevertheless, let the matter and the project be available, and let us not be the cause of delaying its implementation. The opportunity for publication and distribution is available with the following statement: Publication and documentation data:
Publication data from the country of origin and author: 1441 AH. Publisher: AHMED.H.AISULMI. Source statement: Tasnef for Reliance Company: Standard Cloud Computing with Digital Standards. / Accreditation Assessment Authority.
Place of publication: Riyadh. Publisher: Media Regulatory Authority Authority). Publication Year: 1441 AH. Deposit Number: 1447/6257. International Standard Book Number (ISBN): 978-603-06-0050-2. Deposited at the King Fahd National Library.

Size: (1 volume; A4 size, cm). Subjects: Cloud computing; digital standards; accreditation.
